

ERRATUM: "SPHERICAL STELLAR SYSTEMS WITH SPHEROIDAL VELOCITY DISTRIBUTIONS"
[ASTRON. J. 90,1027(1985)]

DAVID MERRITT

Department of Astronomy, University of California, Berkeley, California 94720

Due to a production error, the following paragraph was omitted:

Note added in proof: After this paper had gone to press, the author learned of a recent paper in the Soviet literature on the same subject. Osipkov [Pis'ma Astron. Zh. 5, 77 (1979)] gives an equation analogous to Eq. (11) for the Type I (radially anisotropic) solutions. He also derives an expression for the radially anisotropic Plummer distribution function (in which one of the exponents appears to be incorrect).
